

RIIMPO323E CONDUCT CIVIL CONSTRUCTION DOZER OPERATIONS

Course Overview

This unit describes a participant's skills and knowledge required to conduct civil construction dozer operations in civil construction. This unit applies to those working in site-based roles.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and industry sectors, and must be sourced from state jurisdictions prior to applying this unit.

This unit alone does not provide sufficient skill to independently load and unload equipment. To perform this activity safely, personnel must either complete or be assisting someone who has completed RIIHAN308F Load and unload plant or equivalent.

Refer to: <https://training.gov.au/Training/Details/RIIMPO323E>

Course Topics

- Dozer types, characteristics, technical capabilities and limitations
- Soil technology and soil compaction for civil work
